

# Find Your Fit

## - my wide leg pants -

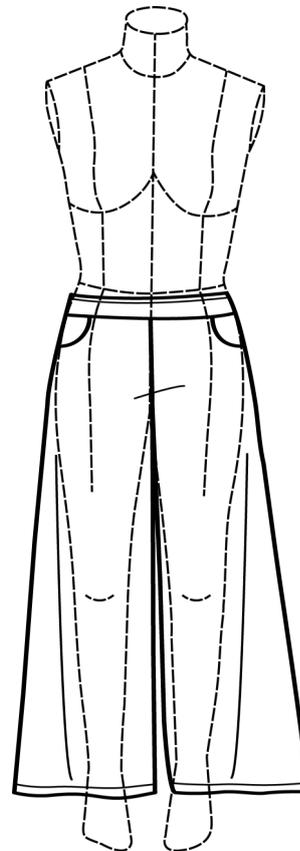

### About the fit

My wide leg pants

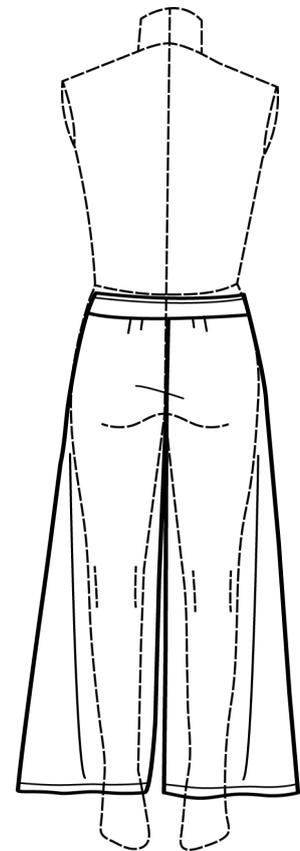

Are fitted though the yoke around the waist and are semi to loose fitted over the hips and wide legs to skim over your hips. The picture shows the yoked waistband and long length option.

### Pattern Details

- Wide yoke for comfort over your stomach - the yoke measurement is approx. 1" below the natural waist
- Back contour darts at the waist for the yoke option.
- Side zipper
- Great front pockets
- Bias binding to easily finish the yoke waistband
- 3 style options:
  - \* pants - wide leg or harem
  - \* cropped pants
  - \* skirt
- Can also make a rib band option to make them either a pull on pant or skirt

Size XXL	44" (112cm)	56" (142cm)	43" (109cm)	37½" (95cm)

General Guide to ease -	Fitted	Semi - Fitted	Loose - Fitted
	0-3" (0 - 8cm)	4"- 6" (10 - 15.5cm)	7" + (18cm +)

**NOTE:** I aim to measure at least one size, usually a Size M. Generally speaking the difference between sizes is 2"(5cm) in width and 3/8" (1cm) in length. The length of the pants is calculated for the height of 5 feet 8 inches (173cm). To lengthen or shorten you're wide leg pants, then this is done at the hem line on the pattern.

### Ease Key

How much ease is in your garment? Compare the finished garment measurements to your body measurements to determine the amount of ease.

The difference between measurements is the actual amount of ease the pattern has. With this information, you can double check your pattern's ease allowance, ie. How loose or tight it will be on your body.

For more information on ease, go to the tutorial section at my website: [www.passionatelysewn.com.au](http://www.passionatelysewn.com.au)
